

Model: MCS115e

15" 1U Shortest depth (16" Deep) Rackmount and Removable/Portable Console-Combo free with Front USB HUB

MCS115e is a Portable Console-Combo free with HUB which integrates keyboard, mouse and TFT LCD, and which is really an ideal equipment of computer maintenance for carrying pretty conveniently.

Modular components simplify maintainability

1. LCD module assembles all components inside.
2. Keyboard/Touch Pad module can be easily replaced.
3. Strong hinge for LCD module.

Independent design create the mobile console

1. Portable structure strengthens mobility.
2. Double Bumpers protect connectors.
3. Heavy duty handle for mobility.
4. Compact size for 35x35 cm length chassis.

Friendly operation and stable system

1. All USB devices are accepted.
2. Each USB port supports 2A current for USB devices.
3. Switch Keyboard/Touch pad through P/S2 & USB channel.
4. Fully supports traditional PS/2 KVM switch.

Other advantageous supports

1. Custom cables manage all connection for users.
2. Cabinet drawer for rack-mounted (option)
3. Precise structure simplifies installation.
