RCK Series

1U Rackmount Keyboard

1U Rackmount PS/2 87 key compact keyboard with touchpad, Slides adjustable for 20" to 30" depth, 19"(W) x 1.75"(H) x 20.0"(D).

(Model: RCK470E)

Our 1U Rackmount keyboards are offered with standard sized keys and numeric pads, small sized keys, touchpads, trackballs or standard size mouse pointing device choices. Supplied with ball bearing slides which lock in the extended position and are easily mounted by one person. All rackmount keyboards also come with cable management arms attached. Most of our rackmount keyboards (as noted for compatible KVM use) may be used in conjunction with a monitor and KVM switch to control multiple computers using a single keyboard and monitor.

Features:

• 87 key compact keyboard with touchpad.
• Integrated 2 button touchpad.
• 12.6" deep storage space behind keyboard
• Slides adjustable for 20" to 30" rack mounting depth.
• 19"(W) x 1.75"(H) x 20.0"(D)
