

1U 23" SINGLE SCREEN RACKMOUNT LCD

1U 23" Full Hd 1920 X 1080, 16:9 Display 101 Keys Backlit Keyboard with Touchpad and Adjustable Brightness. Resistive Touchpad

Model: BMil2300e

It offers the largest display available in a 1U rack. The compact mechanism lifts, rotates and tilts to allow ergonomic operation. The design is also very space efficient when deployed – the keyboard only extends minimally from the rack, allowing use in tight spaces.

Also included are a full-HD web-cam, and dual CAC card reader. Pass through connections for a mouse and audio are also standard. A strong machined pin assembly provides rigidity when closed so the system can be used in mobile rack applications. Weight is a very reasonable 23.5lb. An ambidextrous mouse pad extension is also supplied.
