

CYBER@SWITCHING®

PS SERIES

Got Power?

Even our Basic line of products
exceeds expectations...

The **PS Series** allows users to distribute power to rack mount equipment. Horizontal and vertical formats are available in a variety of configurations to meet most requirements. With the PS line, Cyber Switching delivers an affordable non-metered power strip with the high quality that customers expect.

Can be customized for different configurations

CYBER[®] SWITCHING[®]

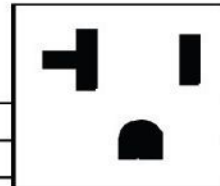

PS Series 1420 Technical Specifications

Horizontal (1RU)

Part Number 1011099

Output

Output Voltage	120 VAC
Output Connections	(14) NEMA 5-20R
Maximum Output Current	16 A
Maximum Output Current per Receptacle	16 A

Input

Input Voltage	120 VAC
Input Frequency	60 Hz
Input Cord Plug*	NEMA 5-20P
Cord Length	8 feet
De-rated Input Current	16 A
Load Capacity	1920 VA

*other input cord plug options available

Physical

Net Weight	3.70 lbs.
Maximum Height	1.75 inches
Maximum Width	17.00 inches
Maximum Depth	2.00 inches
Shipping Weight	5.00 lbs.
Shipping Height	24.00 inches
Shipping Width	6.00 inches
Shipping Depth	6.00 inches
Color	Black

Environmental

Operating Environment	0 to 45 °C
Maximum Operating Relative Humidity	95%

Regulatory Approval	cUL Listed, UL Listed, IEC 60950-1, FCC Class A, FCC Class B
---------------------	---

Warranty

Standard	2 years repair or replace
Extended	optional

SUBJECT TO CHANGE WITHOUT NOTICE.
